

Software Developer/Programmer Positions Open in Belgrade (Serbia)

All candidates interested in these positions should send their resume (CV), in English, to:

programmers@investintech.com

at the latest by midnight September 29th, 2006.

Investintech.com Inc. (www.investintech.com), a Canadian company headquartered in Toronto (Canada), is the developer and publisher of powerful desktop and server PDF creation and extraction software products including Able2Extract, Sonic PDF and Absolute PDF Server.

Investintech.com Inc. is looking for qualified persons to fill several software developer/programmer contract positions open in Belgrade, Serbia.

The successful candidates will work with us and assist us in the further development of our suite of software products and technologies. We seek an individual who performs technical tasks efficiently and effectively providing a high quality code while meeting project objectives and deadlines under minimal technical supervision.

Desired Qualifications

- Completed Bachelors Degree (4 or 5 year university course) in electrical engineering, computer science, mathematics or related subject
- Knowledge and experience in C/C++ programming language
- Advanced knowledge and experience in programming algorithms and data structures
- Experience in MFC (Microsoft Foundation Classes) an asset
- Experience in MS Windows system programming (9x, 2000, XP, 2003)
- Good English language communication skills - spoken and written
- Position is open to recent graduates (experience in commercial software development is a plus, but is not a requirement)

Key Responsibilities

- Perform problem analysis and solution planning
- Develop and maintain source code for programs
- Document systems and programs according to standards
- Design program logic to meet technical and functional specifications in accordance with prescribed standards

Compensation

- Negotiable and competitive; with all payroll taxes due paid to government
